OUR STYLE

We love capturing beautiful images.

But what we love MORE is striking the right balance to deliver a phenomenal set of photographs without being intrusive, or putting you in awkward and uncomfortable positions. We truly believe in the art of capturing a genuine moment organically, and we continue to strive for perfection to continue doing what we do while staying true to our identity.

A romantic wedding ceremony scene. A bride in a white gown and veil is being kissed on the cheek by a groom in a white tuxedo. They are standing under a lush archway of white and purple roses. In the background, a officiant in a black dress is speaking into a microphone. To the left, a bridesmaid in a pink dress holds a bouquet of white roses. The scene is lit with warm, soft light, and a single lit candle is visible in the foreground. The overall mood is intimate and elegant.

ENGAGEMENT \$1,000

Let us take the lead and guide you to look amazing. Instead of doing cheesy and forceful poses, we tirelessly work with each of our couples to bring out their personalities and create unique images that last a life time.

We deliver approximately 300 images in high resolution watermark free in a FULL 3-hour session.

We also offer a shorter 2 hour session for \$700

**in order to maintain our quality and uniqueness, engagements by Herman is limited to the first 25 couples every year.*

CINEMATOGRAPHY

We began developing our video team back in 2010 when we first partnered up with dedicated cinematographers working with us to develop our chemistry and perfecting our style of shooting weddings. That eventually evolved into our sister company: Cotton Love Studios.

Cotton Love Studios has since thrived and became a premier wedding cinematography studio in Southern California, and we are proud to partner with them to offer their services as our in house video team.

We care about all the little things that matter - stabilizing the camera, always getting the lighting and colors right, capturing the happy moments and never faking it. It is what we do with our photography work in conjunction with motion and sound, and the most important of all:

Telling your Story
